**Subject:** Avila Traffic

Dear Board of Supervisors,
I am a resident of Avila Beach and I am very familiar with the traffic congestion problems faced by our community. Not only is traffic congestion an inconvenience, but it is also a significant safety issue. As you know, Avila has one-way in and one-way out on a narrow and winding road. In the event of a disaster such as fire, earthquake, tsunami or nuclear event the consequences could deadly.
Avila Beach is the only area in SLO County that has a General Plan requirement restricting when traffic is evaluated. SLO County Public Works is responsible for determining the methodology for traffic evaluation elsewhere in the County and Public Works should have the same responsibility in Avila so they can ensure that new development proposals are properly evaluated using the County common standard.
Deleting the existing traffic evaluation method, based on the second week in May, is essential so that the SLO County Planning Department and Board of Supervisors are making future decisions based on an accurate representation of traffic patterns in Avila Beach.
Thank you for you consideration.
